MORNING NEWS.

THURSDAY, JULY 17, 1879.

The MORNING NEWS has the largest circulation of any paper published in Mono County, and is being rapidly extended. All subscribers will please note this fact.

Mr. C. W. CRANE, Agent for the MONO COUNTY NEWS, is in San Francisco, and will be glad to receive orders for the paper, and to receive subscriptions. The price of the paper is \$1.00 per month, and \$10.00 per year, in advance. The paper is published every day, except on Sundays and holidays.

POWDER MAGAZINES.

The late fearful catastrophe by which the old Standard and other works on Bodie Bluff were blown to atoms, taking with them, as the number now stands, seven human beings, and severely wounding many others, should act as a warning to all who may have explosive matter about their premises. The evidence given before the Coroner's jury recently held here goes to show that the magazine which exploded on the 16th instant contained but two tons of powder at the time of the accident. The injury done by this comparatively small amount of explosive matter should suggest the thought of how much more destruction would have been caused had more powder been stored in that magazine. Rumors, of course, are rife that many small lots of blasting powder are even now stowed away in various portions of the town, which are as liable to be exploded as was that in the magazine of the Standard. Whether these rumors are true or not is a question which should be at once decided, and it is to be hoped that all dealers in dangerous explosive materials of all kinds will at once see that the same are removed to some safe place outside the town limits. We cannot afford to be in continual dread of another disaster such as occurred lately, and are satisfied that it is only necessary to make the above suggestions in relation to this matter to have it at once attended to. A magazine should be built by tunneling into a side-hill at least two miles from town, and all parties owning powder or explosives of any kind be required to store the same in that receptacle. The sooner action is taken in this matter the better it will be for all concerned.

DOMESTIC NEWS.

How Not to Keep the Terms of a Treaty.—Darien Canal and De Lesseps—Columbia River in Pennsylvania—Yellow Fever Subduing Dr. Glenn, the Much-Nominate Candidate, Before the Inquisition—The Thorne Case—Another Attempt at Blackmail—Etc.

An Antislavery Treaty.—New York, July 15.—The Times says, editorially: The Spanish Claims Commission organized during the early history of this country and living, apparently to perpetuate a state of how, yesterday, has finally come to a decision. Baron Blane, the United States Commissioner, has decided in favor of the United States in all cases yet considered. He therefore refused to send any more cases to the United States. This is an open and direct violation of the treaty between Spain and the United States, in which the essential features of the commission were solemnly agreed upon by both governments. If persisted in and sanctioned by the Spanish Government, it will involve a direct breach of good faith, such a breach as our Government would have been guilty of if it had refused to accept the award of the Hay-Fisheries Commission on the plea that Minister Delosque had procured the case against the United States. The Spanish Claims Commission was organized by mutual consent to adjust claims of damages to Spanish subjects in America, growing out of the hostilities in Cuba. It has so far done nothing of the sort, and its dissolution would not be regarded by our people as an anomaly.

More on the Darien Canal.—New York, July 15.—The Tribune says, editorially: The active part which De Lesseps is taking in the Darien canal project, naturally inspire considerable confidence and awaken general interest in the project. It is a great work of the same kind, under adverse circumstances he ought, if it assumed, be qualified to determine the feasibility of this enterprise. But the influence of his example is necessarily limited. Already it is suggested in France that careful estimates, based on a thorough survey, should be made before De Lesseps takes for a subscription of \$20,000,000. People will not desire to know what profits the canal may be expected to yield. The subscription cost about \$20,000,000, and for the first two years the expenses exceeded its receipts, and the profits since then have been very small. The net earnings were only \$37,366 in 1877. De Lesseps is entitled to a large compensation for his services, but when the enthusiasm of the movement has subsided, his appeals for capital will be not, inevitably, a waste of inquiry: "Will it pay?"

Coal Mines on Fire.—CENTRALIA, Penn., July 16.—A fire was discovered, last evening, burning from the slope of Proctor's colliery. A breaker, which cost \$150,000, was soon in flames. The vein of coal is still burning fiercely, and the mine is being flooded, but with great prospects of overcoming the flames, which now endanger the working of the Consuelo and Hazard coal mines, which are only divided from the burning mass by a pillar of coal 100 feet thick. Should the workings take fire, the town would be ruined. Several valuable pumping engines were destroyed, together with the breaker and other buildings. The loss is estimated this morning at \$200,000. Just before the fire broke out, a load of miners were descending into the pit, and a narrow escape from destruction, receiving timely

warning from two boys who escaped the flames.

The Blockade Being Raised.—MEMPHIS, July 16.—The only restriction against Memphis freights now being enforced are by the Memphis & Lake Road and the Mississippi railroad. All others have been quashed, and the merchants report a rush of business also a general feeling of hopefulness exists as to the future. The physicians now say that young Day will recover. Dr. Henning, who was reported as having left the city, returned the next day with his family and resumed the practice of his profession. No new cases have been reported for a week.

The Elliott Massacre.—OWENSBORO, Ky., July 16.—Among the witnesses called this morning for the defense in the Buford case, was a man named Elliott, the lady to whom Buford addressed a letter just before the murder. The lady's story sustained the theory of the prisoner's insanity. After a few witnesses had given their evidence, the death of Elliott with the privilege of introducing a few more witnesses who are expected to arrive tomorrow.

Board of Health in Havana.—WASHINGTON, July 16.—The commission appointed by the National Board of Health of the United States, for the purpose of studying the yellow fever symptoms, development, and transmission in Havana, is proceeding to work there assiduously. During the past week there were 117 deaths from yellow fever in Havana.

Democratic State Central Committee.—SAN FRANCISCO, July 16.—The Democratic State Central Committee met today to take into consideration the question of having down Dr. Glenn's name. He was denounced as a traitor to the cause of the party, and J. P. Hoge and Controller Brown demanded his displacement from the head of the ticket. Mayor Bryant deprecated any action of a committee of four, which would be a blow to the party, and pointed out that Dr. Glenn was appointed to wait upon Dr. Glenn and request his attendance before the committee to answer a few questions. A motion was then taken. About 1 o'clock the question of having down Dr. Glenn's name was taken up. The committee, and when asked to explain what he meant by his letter to the H. B. S., Dr. Glenn said his letter expressed all he felt on the subject; he had been nominated by the H. B. S., and in justice to them he would have to support their ticket, as he had been first nominated by them. This ended the conference, and after some debate it was decided to adjourn without taking action, until Saturday next, at 1 o'clock, and in the mean time to ascertain the sentiment of the party upon the question of having Glenn down. It is believed that a large majority of the committee were in favor of taking him down, and a speech of Senator O'Connell, which he was ready to vote in the affirmative. It is charged that the movement to take Glenn off the ticket is a conspiracy with the friends of Governor Irwin, who want to substitute him for Glenn.

Bullion and Exchange Troubles.—SAN FRANCISCO, July 15.—At the regular weekly executive session, today, the Bullion and Exchange Board of the San Francisco Board of Commerce, after a long session, decided to make an investigation into the matter of bullion and exchange, and the executive committee now has no more to do.

A Case of Blackmail.—SAN FRANCISCO, July 16.—In the City Criminal Court today, the case of Alfred De Cressy vs. S. P. Thorne, for alleged rape at the Cosmopolitan Hotel a few days ago, came up. The plaintiff did not appear, and a letter was read from his counsel, stating that he was satisfied with the case and was withdrawing as counsel. The case was dismissed.

FOREIGN NEWS.—BONAPARTE IN RUSSIA. LONDON, July 16.—I am informed that the meeting of the Orleans family at Compiègne, which is intended to discuss the course to be taken by them in view of the improvement in the prospects, in consequence of the likelihood to occur among the Bonapartes, because of the unpopularity of Prince Jerome Bonaparte.

Cholera in Russia.—BERLIN, July 16.—Cholera has made its appearance in Koenigsberg, Russia. The epidemic continues to ravage in Dessau, where the Government has ordered universal fumigation of the dwellings and clothing of the peasantry.

Notice.—I have this day received the largest and best stock of wall paper ever brought to Bodie, and I offer for sale at a low price. JOHN M. ABBOTT.
